RESIN: 100% Acrylic modified for superior durability
COLOR: Tint Base for most colors
Up to 8 oz. universal colorant per gallon
SOLIDS BY WEIGHT: 73 +/- 2 %
SOLIDS BY VOLUME: 54 +/- 2 %
VISCOSITY: 140 KU @77F
WEIGHT PER GALLON: 14.92 lbs.
FLASH POINT: None
PERMEANCE: 32.7 +/- 2% (ASTM D-1653)
MILDEW GROWTH: 0% (ASTM D3273)
FIRE&SMOKE: (ASTM E84)
non-combustible Class A
SCRUB: (ASTM D-2486)
5000+ cycles no erosion
PENCIL HARDNESS: 2H (ASTM D-3363)
RECOMMENDED COVERAGE: As a level 5 finish, 200 sq. ft. per gallon. As the texture coat, 125 sq. ft. per gallon depending on the type of texture pattern desired.
TOTAL SYSTEM DFT: 10-12 mils
DRYING TIME@75F&50%RH:
To touch: 2 hours
To texture coat: 4-8 hours
Full cure: 7 days
Drying times are influenced by ambient temperature and relative humidity.
CLEANUP: Water
VOC: 38.5 grams/liter
TEX WALL 2020 MULTI-PURPOSE TEXTURE SYSTEM is designed as a single product, non-aggregated, two-coat texture wall surfacing system that provides a ultra-tough, durable, breathable decorative commercial textured wall finish on interior walls and ceilings. TEX WALL is a 100% acrylic emulsion breakthrough product that is ideal for use in motels, hotels, apartment buildings and commercial projects. TEX WALL remains slightly flexible when cured thereby making it extremely resistant to cracking and chipping under the most demanding commercial/hospitality environment. The coating can be used to create a Level 5 Drywall Surface and as a splatter knockdown or can be used in motels, hotels, apartment buildings and commercial projects. The coating can be used to create a Level 5 Drywall Surface and as a splatter knockdown or as a spray. The coating can be used to create a Level 5 Drywall Surface and as a spray.

MILDEW CONTROL
Controlling moisture is the key to controlling mildew. Without moisture, mold and mildew cannot absorb nutrients and grow, no matter how many spores are present. Traditional vinyl wallcoverings contribute to moisture by acting as a vapor barrier. TEX WALL is the ideal solution. TEX WALL “breathe” to allow moisture to escape. TEX WALL is also fortified with mold and mildew growth inhibitors.

WARNING! If you scrape, sand, or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS SUCH AS BRAIN DAMAGE. ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

WARNING! This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm. WARNING! IRRITANT! HARMFUL IF SWALLOWED, WHEN TINTED, CONTAINS ETHYLENE GLYCOL WHICH CAN CAUSE SEVERE KIDNEY DAMAGE WHEN INGESTED AND HAS BEEN SHOWN TO CAUSE BIRTH DEFECTS IN LABORATORY ANIMALS. MAY CAUSE EYE, NOSE AND THROAT IRRITATION. AVOID CONTACT WITH SKIN AND EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION AND PROTECTIVE CLOTHING. USE ONLY WITH ADEQUATE VENTILATION. To avoid breathing vapors and spray mist, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. FIRST AID: if you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately. CAUTION: KEEP OUT OF REACH OF CHILDREN - DO NOT TAKE INTERNALLY.

TEX WALL APPLICATION
TEX WALL is a two coat spray–designed system. To a level 4 dry-wall surface apply the base color coat by airless sprayer, using a .027-.023 tip. Apply at 10-12 mils. Using a slow speed joint compound paddle. Airless pump capacity rate of 160-200 sq. ft. per gallon. TEX WALL can be thinned with water. Use 1 gallon color formula (20%) as a starting point in color matching. Up to 8 oz. of colorant per gallon.

TEX WALL is tintable at store level with most Color Systems in pastel to medium shades. Use 1 gallon color formula (20%) as a starting point in color matching. Up to 8 oz. of colorant per gallon.
