Our Philosophy

Our philosophy is simple: combine the best products of Greece with the country's cultural and culinary standards. GRK goes to the ancient roots of Mediterranean cuisine, one of the world's healthiest, with a focus on authentic Greek recipes.

Our menu integrates the highest quality aromatic meats, Greek olive oil and Greek yogurt with an abundance of fresh vegetables, fruits and grains. These are longevity foods which provide for a long and nutritional life.

Our yeero is all natural, grass and grain fed. The meats are all marinated in a special blend of aromatic spices and Greek extra virgin Olive Oil. They are then layered and roasted on a traditional rotating spit, referencing the Greek word "to spin."
